<p>- Would be better if explain Capsim more.</p> <p>- He knows what he is talking about and explains everything well. His time management skills are also very good as we cover everything on the agenda within our time period. He is able to teach a lot of material quickly and does not hesitate to stop at any time to answer questions or provide another explanation of anything we did not understand the first time.</p>

13 - Do you have any other recommendations?	
Return Rate	3/16 (18.75%)
<p>- The team grade is heavily weighted. Even a student putting effort on learning and doing well on every quiz, the chance of getting bad grade is relatively high due to the team grade. If got assigned with the students who are not responsible enough, you can be pulling a letter grade or two down.</p> <p>- The material we covered in class is very helpful. What we learned in Word and Excel can be used in other classes as well as the real world. Every feature was extremely helpful. Although I will not use my knowledge of specific roles from Capsim in the real world, the knowledge offers a great theoretical understanding of how to manage a company in terms of products, placement, financial issues, and investments. One of the most important skills I will take from this class came from the Capsim presentations. I learned how to pull data from a large database, organize it into charts, argue for a specific point, and present my argument to an audience. I will definitely use these skills in my future educational and professional career.</p> <p>- Excellent management of the groups for the Capsim project.</p>

<p>- This is the appropriate difficulty for a graduate level course. Many say Dr. Garrett is too hard, but if you want graduate-level-performing alumni, this is how hard the classes should be.</p> <p>- Had amazing Last class</p> <p>- I think that excel should be covered a little bit more.</p> <p>- I was enjoyed this course very much. Class was extremely challenging, but I believe this course was one of the best. Material that instructor assigned was very interesting, I love all videos and articles except "eve online". Excel exercises helped me to refresh my memory and learn new combinations. Despite of challenge, I believe that professor Garrett one of the best professor in WU, dedicated, passionate about his subject, highly intelligent and humble. I am very grateful for this experience, no matter how stressful it was for me, maintain two classes and working full time. The class overall inspired me to learn more about this subject.</p> <p>Thank you Professor Garrett, I appreciate your innovative thinking.</p>
