3. Instructor has a genuine interest in individual students	0	0	0	0	3	5.00
Dr. Garrett truly cares about each and every student as an individual rather than a whole class. I appreciate that.						
4. Instructor is adequately accessible to students after class or during office hours	0	0	0	0	3	5.00
Dr. Garrett is always willing and able to help!						
5. Instructor is enthusiastic about teaching the course	0	0	0	0	3	5.00
Dr. Garrett is so good at what he does. It has hard not to see his enthusiasm.						
6. Feedback on coursework, including examinations and graded materials, is valuable	0	0	1	0	2	4.33
I would change the way quizzes are graded. Instead of going over it right after we take the quiz when another student is looking at our paper. It would be much more helpful is we were to review our graded quizzes after the fact.						
7. Methods of evaluating student work are fair and appropriate	0	0	1	0	2	4.33
I don't like that our quizzes are graded by other students.

I enjoyed the class but based on the course description I had no idea what the course was about. It did not seem like it had anything to do with Management Information rather it seemed like Introduction to I.T.

Learned a lot of new things and improved my presentation skills.

10. Overall, this course is very good	0	0	1	6	4	4.27
A little heavy at times, but I seemed to manage to keep up. Although there seems to be a lot of content that is going to be covered on the exam. Maybe a little too much.						
11. Overall, this instructor is very good	0	0	1	2	8	4.63
Very passionate about teaching as well as knowledgeable about the subject. I would recommend this course with Professor Garrett to a friend.						
12 . The course workload is (1 = too easy, 3 = just right, 5 = too hard)	0	0	3	5	3	4.00

From my understanding the online program Lynda.com was a new addition to the course and I feel it was not necessary. Between our presentations, chapter readings and quizzes, and our HTML work adding a 16 hour online course made the already heavy workload feel completely unbearable. If the professor feels that the Lynda.com site is helpful I would suggest giving students an option to choose from either do the EXCEL program or the WORD program (whichever they feel they need work on). By letting us choose it wouldn't be boring for people who know one more than the other.

Great class and I certainly learned a lot of interesting and especially useful skills. The only one suggestion I have is this: please be more direct in writing the learning outcomes outline for each week. I would study all the content that was outlined, but there was always at least more than half the test was on content not even mentioned on the learning outcomes list. Although we should know it anyways, it is too time consuming to review every single concept, so it is important to focus, but the correct terms to focus on needs to be outlined properly.

Instructor needs to tell about open book quiz, in advance. We were notified on the second week. If anything is not graded, he'd need to inform earlier.						
8. The instructor is well prepared and explains material carefully	0	0	0	2	7	4.77
Is very patient with students that do not fully grasps concepts and spends enough time until the student(s) is able to explain concept in their own words.						
He needs to speak slower. He is too fast.

Have more professors that are more like Dr. Garrett:

- 1)passionate about the course
- 2)extremely knowledgeable about material
- 3) well prepared with plenty of examples for students to gully grasps complicated concepts

I'd like to see more discussion on the book.
