Overall- this is really a class that is begging to be more than 1 day a week.

The workload and difficulty of the class may not have been as steep if the class was 2 days a week instead of 1.

Previous computer programming experience is needed for this... Or a program to simplify the computer language such as dream weaver or something of that sort.

Very interesting class but extremely hard for people that have never taken HTML, CSS, or JavaScript courses.

WOW... This has been one of the most enjoyable classes I have ever taken here at Woodbury. I felt like I could pursue my dreams and follow all of my interest in a unique discipline.

Heavy, but its an MBA course, not BA.

Should only have two group presentations and no final paper.

11. Overall, this instructor is very good	0	0	0	6	10	4.62

I enjoyed doing the reading/summaries and all assigned assignments. I got my tuitions worth for this course.

I enjoyed Dr. Garretts class, he was extremely enthusiastic about teaching the course and he took a genuine interest in his students and their understanding of the class materials.

Overall, he was an interesting professor and I enjoyed his class.

I like that the professor asks the class to apply what we learn to the company that we work. It makes us understand the taught content more and it is easier because we have the background knowledge about the company and there is no need for new research.

Love Dr. Garrett. I wasn't sure about him at first cuz he seemed a little tough, but he's actually fair and genuinely cares about his students. He is one of my favorite professors at Woodbury. He's also really HOT, which is always a plus.

The only thing I would change is the articles that we cover in class. Some of them are too old to analyze. Since the technology is always moving forward, we should keep the pace and find out about new latest trends. Anyways, I really enjoyed that course and Dr. Garrett is a great instructor!

I would take any course with Dr. Garrett again if offered. I have never learned so much from a class.

Felt the 1st presentation requirements were somewhat unclear. Felt had to present on all items in requirements. 5 min not enough time to do so. Should have required a written report with highlight only presented.

I am extremely happy with the knowledge I gained in this class.

I really enjoyed Dr. Garrett's class. He always made the material interesting and I learned a lot because of it.

Amazing professor. I would recommend every student to take him. He is so interactive and well coordinated. Just don't miss a class and you will be good to go.

Thank You

Good instructor but should be flexible in his class rules. The class quizzes should be done at least 30 minutes into the class to cater for those who might be late not because they wanted to but because the circumstances conducted it.
