The way we do presentations is very interesting. I like the course.

While the material was very interesting, I would have preferred to spend more time discussing how to apply IT to our current business. Perhaps an open forum in the classroom where we could receive input from our peers and discuss ways of improving each others IT capabilities.

Thank you for the presentation practice and how you conducted the presentations for the class, the 5 min rule was very smart!
Thanks!

I love this class. I am learning a lot from the instructor.

none at this time

I think if the instructor better described the projects like the presentations and final project is will be very helpful. I think a lot of the students were confused as to what the teacher wanted us to do for the most part until it was clarified one day. Probably a good idea to mention the projects in the syllabus.

Just a thank you note for providing one of best professors for this course!
I have learned a lot!

Don't forget to give us breaks. If you allow us to make a choice then stick with it.

Thank you for your instruction and I look forward to taking another class from you. Best to you and yours!
